

About CSUEU

Incorporated in 2005 after serving its members as a division of the California State Employees Association for more than 70 years, the California State University Employees Union has built up a rich record of achievements on behalf of its approximately 14,500 represented employees.

Today we represent classified staff members who support the California State University's 23 campuses as well as the Office of the Chancellor, working in five distinct bargaining units.

Our vision is a time when education becomes such a high statewide priority that funds are generously allocated in each year's state budget for the CSU to fulfill its loftiest educational goals while providing its staff with consistently excellent salaries and benefits, all for the betterment of California's future.

Our focus is protecting, maintaining, and enhancing wages, hours and working conditions for our bargaining units and represented members as they provide important services to students on the CSU campuses.

CSUEU's achievements have been the result of the dedication, imagination, and hard work of our members, chapters, bargaining units, and staff. We invite you to join us in our vision for a better California.

CSUEU members: the backbone of the CSU

- We ensure that anything students need for their classes functions well, from biology labs and theatre sets to real-time captioning and library research technology
- We ensure that email and computer networks function around the clock
- We help maintain students' health
- We process student enrollment and financial aid
- We keep the campuses looking beautiful

CSUEU

- Mobilizes members to lobby for stronger CSU funding
- Works with the governor to protect the CSU system's mission
- Works with the legislature to preserve the California Master Plan for Higher Education

Recently CSUEU has...

Successfully mobilized members to work on behalf of our No on 32 and Yes on 30 campaign. CSUEU chapters across the state worked vigorously to defeat Prop. 32 and ensured that Prop. 30 passed. Without passage of Prop. 30, which provided the state with much-needed temporary revenues, CSU would have been hit with at least \$250 million in trigger cuts.

Run a strong "get out the vote" campaign. As a result of our efforts, 88 percent of CSUEU-represented registered voters turned out to cast their votes in the last national election.

Continued to provide support to represented employees on issues related to our contract through our network of stewards and staff throughout the state.

Successfully negotiated a successor contract for Bargaining Units 2, 5, 7, and 9, including the maintenance of health, dental, vision, and life insurance benefits, expanded criteria for granting In-Range Progressions, and wider protections against displacement caused by contracting out.

The California State Universities

As cited in the Campaign for College Opportunity report titled *California's Economic Payoff*, California receives a net return of \$4.50 for every dollar it invests to get more students in and through college. Recognizing the value that the California State University system offers our state, we are proud to be a vital part of CSU's campuses and programs throughout California.
