The meeting began with introductions. The Chair reminded the members that steward recertification would be coming up soon, and gave an update on upcoming stewards training. The committee discussed the need for updating classifications in Unit 7, CSUEU President Pat Gant spoke on the subject. At the time of this meeting the CSU had still not hired a new head of Classification and the union has not heard anything from the Chancellor's Office in regards to continuing our ongoing discussions on classification issues. The Committee then joined with the BU 9 Council to discuss items of mutual interest.

The Chair and Vice Chair then proceeded to update the Council on recent meet and confer issues:

- San Diego- Video Surveillance and Active Transportation policies
- Long Beach- Amorous Relationships
- San Bernadino- Security Cameras
- Sacramento, Chico, and Stanislaus- IRP Criteria
- Statewide-Volunteer Policy and Background Checks

Sherry Velthuson was asked by the Chair to present an issue that has been occurring at San Diego in regards to Dispatchers. There have been problems with dispatchers not getting proper breaks from their work station, it is not uncommon for dispatchers to work 12 hours straight without any break. The council discussed how best to grieve this issue and were encouraged to check on the dispatchers at their campus. The council members were encouraged to look in on some of their unit 7 employees in areas that frequently go unnoticed or do not have an active steward (ex. Public Safety, Payroll, HR, Purchasing, satellite campus, etc...)
