

Jerry Brown: A proven leader!

CSUEU supports Jerry Brown for governor. We know he can do the job — and do it right. He has held public office in California for more than 30 years, and he has proven he will be successful.

- As governor of California and mayor of Oakland, he dealt with tough budgets. He will make sure state budgets are fair to state workers and completed on time. He will not furlough state workers.
- As governor, Jerry Brown built a huge

surplus while lowering taxes by \$4 billion and creating 1.9 million new jobs. He knows how to get California working again.

- Gov. Jerry Brown also enacted hundreds of anti-crime measures and launched innovative health and education programs.
- As mayor of Oakland, he reversed decades of neglect and economic decay. Oakland is now one of the top 10 green cities in America.

• Meg Whitman has never held public office. In fact, for 28 years, she didn't even vote.

Help CSUEU elect Jerry Brown to be our next governor!
